Each Tuesday there will be two types of matches.

There will be matches that count for the team standings and JUST FOR FUN matches that don't count for the team standings.

Bill will set up which team plays against which team in each round.

You, as team captain, will choose which of your individual players will play in each of the Team vs Team matches. Your remaining players can play in a JUST FOR FUN match at the same time.

How many rounds will there be? That depends on the number of teams that show up on a given night.
