

Cheyenne Country Club Junior Golf Program

Mission

Introduce young athletes to the game of golf in a fun and comfortable learning environment. We hope to get juniors excited about the game of golf and help them understand basic golf rules, etiquette and that sportsmanship has value beyond the golf course.

Our Philosophy

While it is important to work on specific fundamentals, too much focus on detailed technique at an early age can be confusing, inhibit development and it's boring. Classroom type lectures are kept to a minimum. Instead, whenever possible we hope to simulate play on the course in the practice area. Games in practice keep kids interested. Our focus will be on variable type practice where we change clubs and targets often. This is fun for kids and is target driven not technique driven. We will balance challenges with skill set and allow kids to get absorbed in the fun of playing and practicing the game. We are confident your child will learn the basic forms, skills, tactics and strategies of the game and improve as a player.
